## *1. Study II*

JF gives an update on Study II. SI has provided feedback during summer and JF is right now working on mainly the discussion part. Decision needs to be made on who should get to read and provide feedback on the next version of the manuscript and when it should be sent out. JF suggestion is that he could send out an updated version by the end of next week.

## *2. Study III*

JF gives an update on Study III. An invitation to participate in the online survey was sent out (see attached document - in Swedish) by the boards of a number of local senior and disability organisations to +3000 of their members last week. So far 70-80 have responded to the first part of the survey that is out now and possible to answer until 31 August. A reminder will be sent out by the end of this week. JF will give a brief account of the responses so far (see document 210816-survey1.pdf (in Swedish) to see the results but please observe that data cleaning has not been made).

JF wishes to discuss which questions in the survey should be the focus of the study. He also wish to discuss the content of the second part of the survey that will go out in mid-September (see document 210816-survey2.pdf (in Swedish) to see the suggested questions) and get opinions on whether it needs to be complemented by other questions.

## *3. Time plan up to defense*

JF wishes a discussion on setting up a realistic time plan up to defense, and about which tasks except study II and III that JF should start planning for next.

*4. ISP*

The individual study plan needs to be updated as soon as possible and a deadline for this needs to be decided.

*5. Next supervision*
